PEDAL PATH™

The stage is set and imaginations are ready to take over! Now any playground can be more creative and fun! Pedal Paths straight, curved, left/right and 4-way sections make it possible to create a design to fit most play areas. Pedal Path is the NEW alternative to traditional hard to form concrete paths! Pedal paths are great for creating new and exciting interest areas where children are free to express themselves, develop motor skills, learn the rules of the road and communicate like never before!
